

BIBUS

BIBUS SINDBY

Profler 8

Velkommen

BIBUS SINDBY A/S er et solidt og velkonsolideret import- og handelsfirma, der har industrien og opbyggere som de to største kundegrupper. I de over 100 år firmaet har eksisteret, er en videnbank bygget op omkring indkøb og udvikling af kvalitetsprodukter primært til industrien. Sund fornuft og kvalitet er nøgleordene for al handling i virksomheden. Vi har været i konstant udvikling siden starten og har skabt en virksomhed, der er rustet til de stigende udfordringer og muligheder i industriens utallige niches.

Adm. direktør Keld Hansen er i dag manden bag BIBUS SINDBY. I 2007 overtog BIBUS AG virksomheden efter den tidligere ejer og Sindby-familien, der siden 1918 har drevet firmaet over tre generationer. Virksomheden har løbende udviklet sig med kundeklientellet.

Energioptimering

BIBUS SINDBY A/S iværksatte i september 2022 en proces, hvor vi gennemgik vores el- og gasforbrug. Med en ny investering i belysning samt en simpel adfærdændring, lykkedes vi med at reducere vores elforbrug med over 40%. Vi offentliggør vores forbrug internt og på vores hjemmeside en gang i måneden for konstant at holde hinanden op på bedre forbrugsvaner. Vil du høre mere om vores tiltag, så er du altid velkommen til at kontakte os.

We care about nature

Hos BIBUS SINDBY A/S har vi taget et aktivt valg for at mindske tab af biodiversiteten. Helt konkret har vi etableret et stort udendørsområde med vandhul, insekthoteller, sandbade, tørvestabler og frugttræer til bestøvning. Du kan følge udviklingen her eller gøre som vores medarbejdere - gå en tur rundt på de naturlige stier, kig dig omkring eller hold en pause ved bålstedet og lad sanserne få en anderledes oplevelse i en travl hverdag. Vores "have" er et fælles projekt, og derfor er det naturligt, at vores jubilare udvælger det træ eller den busk, de ønsker at have stående i fremtiden. I dette forår (2023) planter vi de næste i rækken. Udadtil prøver vi at få vores leverandører til at tage aktivt stilling til, hvad lige netop de kan gøre. Alene kan vi ikke redde alverden - men sammen en god del. Vi vil altid gerne inspireres og udfordres, så har i nogen bud på, hvordan vi bliver endnu bedre så sig endelig til.

Vores vigtigste ressource

Det er vores medarbejdere! Vi ønsker at dyrke det hele menneske. Det gør vi ved at interessere os for hinanden. Vi ønsker, at vores medarbejdere har et sundt familieliv, et aktivt fritidsliv og et meningsfyldt arbejdsliv. Kort sagt: Døgnet har 24 timer - så en tredjedel med fuld fokus på firmaet bør og skal være nok. Så er der også energi til at løfte i fælles flok, når det indimellem kræves. Vi ønsker at tiltrække unge mennesker og vi ønsker, at alle skal have lige rettigheder for at få en uddannelse og karriere, uanset etnicitet, religion, handicaps eller køn. For tiden gøres dette ved at vi støtter unge kvindelige håndboldspilleres mulighed for at kombinere elitesport og uddannelse. Det kan du læse mere på vores hjemmeside under sponsorater.

Vores værdisæt med få ord

Hos BIBUS SINDBY A/S tager vi ordet ORDENTLIGHED meget alvorligt.

Vi ved at det er et ældre og lidt støvet ord, men det dækker over den måde, vi ser på verden.

- Vi ønsker kun at samarbejde med leverandører, der overholder gældende miljøregler
- Vi tager kraftigt afstand fra tvangs- og børnearbejde
- Vi aflægger jævnligt besøg hos vores leverandører, for at sikre og præge, at vi deler et fælles værdigrundlag
- Vi prioriterer vores værdier højere end kortsigtet profitjagt, da det på den lange bane har vist sig, at udmønte i bedre resultater

Du kan læse vores Code of Conduct for at få flere informationer om vores retningslinjer.

Vi finder en løsning

Som nævnt arbejder vores medarbejdere ofte tæt sammen med kunden for at finde den ideelle løsning.

Gennem deltagelse på messer over hele verden sikres det, at vi altid er opdateret på den nyeste viden og de nyeste produkter. På den måde opbygger vi et stort og globalt net af forbindelser til producenter.

Hvert år udvikles over 400 nye produkter i samarbejde med kunderne, enten som eksklusive produkter eller som nye lagervarer hos os. Dette aftales fra projekt til projekt og kommer an på, hvad der er mest fordelagtigt for begge parter.

Vi ser frem til vores samarbejde!

Med venlig hilsen
Keld Hansen

BEMÆRK

Tegningerne i dette katalog er ikke målfaste. Alle mål er i mm, hvis ikke andet er opgivet. Visse profiler lagerføres ikke men hjemtages kun på bestilling og ud fra mængde. Afklippede profiler tages ikke retur.

NOTE

The drawings in this catalog are not dimensionally accurate. All dimensions are in mm unless otherwise stated. Some profiles are not kept in stock, but are only available on order and based on quantity. Cut profiles are not returnable.

Kantlister

Edge trims

Hjørner og kanter er ofte udsat for ekstra slitage og stød. Derfor kan det være en stor fordel at anvende kantlister produceret i gummi. Kantlister bruges i dørkanter, trucks, rundt om vinduer, til stole, motordele, kabinetter mm.

Vi har mange forskellige lister på lager, som hver især er specificeret i forhold til type, kvalitet, med og uden ballon osv. Hvis vi ikke har produktet på lager, kan vi også levere specialprofiler på bestilling. Vi er derfor stolte af at sige, at vi kan løse næsten alle typer opgaver.

Med det store udvalg følger naturligvis en stor viden, som vi gerne deler ud af, skulle du have brug for det. Vi kan hjælpe dig omkring dit valg og kan besvare spørgsmål om stort set alt vedrørende vores kantlister.

Corners and edges are often exposed to additional wear and tear and impact. Therefore, it can be a great advantage to use edge trims made of rubber. Edge trims are used in door edges, trucks, around windows, for chairs, engine parts, cabinets, etc.

We have a wide variety edge trims in stock, each specified in terms of type, quality, with and without balloon, etc. If we do not have the product in stock, we can supply special profiles on order. We are therefore proud to say that we can solve almost any type of task.

Naturally, with a large selection comes a wealth of knowledge that we are happy to share should you need it. We can help you with your choice and answer any questions you might have concerning edge trims in our range.

33.439A

Material: PVC+bi / sponge rubber
Grip range: 1 - 4 mm
Hardness: SH 78 / 57
Density: 0,6
Insert: 26 x 0,5 mm steel
Gule læber *Yellow lips*

33.026

Material: EPDM co-ex
Grip range: 1,5 - 2 mm (1 - 3,5)
Hardness: SH 70
Density: 0,55
Insert: 26 x 0,76 mm wire

33.026XA

Material: EPDM co-ex
Grip range: 2 - 3 mm
Hardness: SH 70
Density: 0,55
Insert: 26 x 0,76 mm wire

33.026X

Material: EPDM co-ex
Grip range: 3 - 4 mm
Hardness: SH 70
Density: 0,55
Insert: 26 x 0,76 mm wire

33.436

Material: EPDM co-ex
Grip range: 2 - 4 mm
Hardness: SH 70
Density: 0,6
Insert: 33 mm wire

33.386

Material: EPDM co-ex
Grip range: 4 - 6 mm
Hardness: SH 70
Density: 0,6
Steel: 31x0,5

33.442

Material: EPDM co-ex
Grip range: 1 - 3 mm
Hardness: SH 70
Density: 0,65
Insert: 29 mm steel

33.473

Material: EPDM co-ex
Grip range: 2 - 5 mm
Hardness: SH 70
Insert: 27 x 0,47 mm steel

33.462

Material: PVC / sponge rubber
Grip range: 1 - 2,5 mm
Hardness: SH 78
Density: 0,65 - 0,75
Insert: 25 x 0,48 mm steel

33.462R

Material: PVC / sponge rubber
Grip range: 1 - 2,5 mm
Hardness: SH 78
Density: 0,65 - 0,75
Insert: 25 x 0,48 mm
Rustfri stål *Stainless steel*

33.409ALU

Material: PVC, black
Grip range: 0,8 - 2 mm
Hardness: SH 75
Insert: 17,5 mm aluminium
Min. order: 10.000 m

33.310ALU

Material: PVC, black
Grip range: 1 - 2,5 mm
Hardness: SH 75
Insert: 26 mm aluminium
Min. order: 10.000 m

33.432ALU

Material: EPDM
Grip range: 2 - 4 mm
Hardness: SH 65
Insert: 26 mm aluminium
Min. order: 10.000 m

33.000

Hjørnestykke i nylon. Sikrer korrekt hjørneradius
Nylon corner piece. Ensures correct corner radius
 PA6 + 30% GF
Min. order: 100

Silikonekantlister

Silicone edge trims

Silikonekantlister anvendes som andre typer af kantlister. Silikone er dog meget mere resistent overfor højere temperaturer.

Vi tilbyder ligeledes FDA egnede silikonelister og / eller op til 270 °C varmebestandighed.

The silicone edge trims are used like other types of edge trims. However, silicone is much more resistant to higher temperatures.

We also offer FDA-approved silicone edge trims and / or with heat tolerance up to 270 °C.

<p>33.311</p>  <p>Material: Silicone, black, FDA conform Grip range: 1 - 2 mm Hardness: SH 60 Insert: Wire 18 x 0,76 mm Varmebestandig Heat resistant 200° C</p>	<p>33.510 *</p>  <p>Material: Silicone, black, FDA conform Grip range: 1 - 2 mm Hardness: SH 65 Insert: Wire 26 x 0,76 mm Varmebestandig Heat resistant 200° C Min. order: 500 m</p>	<p>33.312 *</p>  <p>Material: Silicone, black, FDA conform Grip range: 3 - 4 mm Hardness: SH 60 Insert: Wire Varmebestandig Heat resistant 200° C Min. order: 500 m</p>	<p>33.429 *</p>  <p>Material: Silicone, black, FDA conform Grip range: 2,5 - 5 mm (5 - 7) Hardness: SH 60 Insert: Wire 39 x 0,76 mm Varmebestandig Heat resistant 200° C</p>

Grip range: 2 - 4 mm
Hardness: SH 60
Insert: Wire
Varmebestandig
Heat resistant 200° C
Min. order: 500 m

POM-profiler

POM-profiles

POM-profiler har plastikindlæg, og de kan være et alternativ til kantlister med stål- eller metalindlæg. POM-profiler har mange gode egenskaber:

- God fleksibilitet
- Vejer meget mindre end profiler med metalindlæg
- Kan ikke ruste eller oxidere
- Større sikkerhed ved montering - ingen rifter fra skarpe metalstykker
- I modsætning til profiler med metalindlæg er POM-profiler ikke ledende, og de kan derfor anvendes til beskyttelse eller overflademateriale

POM profiles have plastic inserts and can be an alternative to edgings with steel or metal inserts. POM profiles have many great properties:

- *Good flexibility*
- *Much lighter than metal-based profiles*
- *Cannot corrode or oxidize*
- *Safer mountin - no cuts from sharp metal edges*
- *Unlike profiles with metal inlays, POM-profiles are non-conductive and can therefore be used as a protection or surface material*

<p>33.409POM * (33.409POMX)</p>  <p>Material: PVC + bi Grip range: 1 - 2,5 mm (0,5 - 2 mm) Hardness: SH 75 / 65 Insert: POM plastic Ingen rust, nem at skære <i>No rust, easy cutting</i></p>	<p>33.410POMX</p>  <p>Material: PVC + bi Grip range: 0,8 - 1,5 mm Hardness: SH 75 / 65 Insert: POM plastic Ingen rust, nem at skære <i>No rust, easy cutting</i> Udgår: fejlleverance Discontinued: misdelivery</p>	<p>33.308POM</p>  <p>Material: PVC + bi Grip range: 1 - 3,5 mm Hardness: SH 75 / 65 Insert: POM plastic Ingen rust, nem at skære <i>No rust, easy cutting</i></p>	<p>33.308POMG * (33.308POMXG)</p>  <p>Material: PVC + bi grey Grip range: 1 - 3,5 mm (2 - 4,5 mm) Hardness: SH 75 / 65 Insert: POM plastic Ingen rust, nem at skære <i>No rust, easy cutting</i></p>

Energioptimering

BIBUS SINDBY A/S iværksatte i september 2022 en proces, hvor vi gennemgik vores el- og gasforbrug. Med en ny investering i belysning samt en simpel adfærsændring, lykkedes vi med at reducere vores elforbrug med over **40%**. Vi offentliggør vores forbrug internt en gang i måneden for konstant at holde hinanden op på bedre forbrugsvaner. På vores hjemmeside kan du se hvordan vores energiforbrug har udviklet sig. Vil du høre mere om vores tiltag, så er du altid velkommen til at kontakte os.

*In September 2022, BIBUS SINDBY A/S initiated a process to review our electricity and gas consumption. With a new investment in lighting and a simple behavioural change, we managed to reduce our electricity consumption by over **40%**.*

We publish our consumption internally once a month to constantly keep each other up on better consumption habits. On our website you can see how our energy consumption has evolved. If you want to know more about our initiatives, please feel free to contact us.

Gummisnor

Rubber cord

Gummisnor anvendes som pakningsmateriale og kan monteres i f.eks. et udfræset spor eller limes på.

Uanset hvilken gummisnor du har brug for, har vi løsningen til dig. I vores sortiment fører vi gummisnor i forskellige størrelser (fra 1 - 40 mm) og gummityper. Gummisnorene kan anvendes til mange formål.

Rubber cord profiles are used as gasket material and can be inserted in a cutout or glued on.

Whatever rubber cord profile you need, we have the solution for you. In our assortment we have rubber cord profiles in different sizes (from 1 - 40 mm) and materials. The rubber cords can be used for many purposes.

Silikoneprofiler (skaffevarer)

Silicone profiles (special order items)

Her kan du finde et udvalg af de silikoneprofiler, som vi kan skaffe på bestilling. Vi har meget mere udvalg end der bliver vist i dette katalog, så kontakt os gerne, hvis du ikke finder det rette.

Here you can find a selection of the silicone profiles we can provide on order.

We have a much wider selection than shown in this catalog, so please contact us if you can't find what you're looking for.

Co-ekstruderede plastprofiler

Co-extruded plastic profiles

Co-ekstruderede plastprofiler anvendes som dørtætningslister. Profilerne består af to dele. Den ene del er hård og monteres på sandwich-delen, og den anden del (læberne) er blød. Dermed får man en optimal tætning.

Co-extruded plastic profiles are used as door sealing trims. The profiles consist of two parts. One part is hard and is mounted on the sandwich-part and the other part (the lips) are soft. This gives an optimal seal.

<p>50.083013</p>  <p>Material: PVC co-ex profile, 13 mm, black / white lips Length: 5 m 4 bløde læber 4 soft lips Min. order: 1.000 m</p>	<p>50.083015GG * / 50.083015GGX</p>  <p>Material: PVC co-ex profile, 15 mm, grey / light grey lips Length: 5 m / 4 m 4 bløde læber 4 soft lips 50.083015GGX: light grey / light grey lips 50.083015GG: Min. order: 2.400 m</p>	<p>50.083030</p>  <p>Material: PVC co-ex profile, 18 mm, white / black lips Length: 5 m 4 bløde læber 4 soft lips</p>	<p>50.083032GG</p>  <p>Material: PVC co-ex profile, 18,4 mm, grey / grey lips Length: 6 m 4 bløde læber 4 soft lips Kan fås i andre farver <i>Available in other colors</i></p>

U-profiler

U-profiles

En U-profil er en ren gummiliste uden indlæg. Den fremstilles i flere forskellige størrelser, varianter og materialer som bl.a. EPDM, NR, CR, NBR, SBR og silikonegummi.

U-profiler er fortrinlige til at beskytte paneler, døre, kanter og glas og kan bruges i bl.a. maskiner, biler, møbler osv.

A U-profile is a pure rubber trim without inserts. It is produced in different sizes, variants and materials such as EPDM, NR, CR, NBR, SBR and silicone rubber.

U-profiles are excellent for protecting panels, doors, edges and glass and can be used for machines, cars, furniture, etc.

P-profiler

P-profiles

P-profiler anvendes generelt til tætning af sprækker og andet ved f.eks. døre, vinduer og maskiner.

Alt efter hvilken hårdhed man vælger, kan man befæste profilet på flere måder. Valget af materiale afhænger af omgivelserne.

P-profiles are generally used for sealing cracks on e.g. doors, windows or machines.

Depending on the selected hardness you can attach the profile in different ways. The choice of material depends on the environment.

Rudeprofiler

Glazing sections

Rudeprofiler (også kaldet rudelister) sikrer, at glasset sidder fast i rammen og beskytter det mod stød og bevægelser. Rudelister bruges til bl.a. vinduer i biler, både, busser, maskiner, campingvogne og bygninger.

Husk, at nogle rudeprofiler skal bruge en låsekile, som du kan finde i næste kapitel "Låsekiler".

Hvis du har brug for en rudeprofil med lidt anderledes mål, hjælper vi dig gerne med at finde en løsning.

Glazing sections ensure that the glass is fixed in the frame and protect it from shocks and movement.

Glazing sections are used for windows in cars, boats, buses, machinery, caravans and buildings.

Remember that for several glazing sections you need to use a filler strip, which you can find in the next chapter "Filler strips".

If you need a glazing section with a slightly different size, we will be happy to assist you to find a solution.

Låsekiler

Filler strips

Låsekiler anvendes som fiksering sammen med rudeprofiler. Når en rudeprofil er sat på plads, låses det med en låsekile for at sikre et fast greb om ruden.

Kilerne fås i et utal af farver og kan give en maskine eller bil et helt nyt udtryk. Låsekilen har altså ikke bare en funktionel betydning men også en æstetisk.

Filler strips are used as a fastening together with glazing sections. Once a glazing section is in place, it is fastened in place with a filler strip to ensure a tight fit around the window.

The filler strips are available in countless colors and can give a whole new look to a machine or car. The filler strip does not have just a functional significance, but also an aesthetic.

Svampegummi

Sponge rubber

Svampegummi er en opskummet og blød gummitype med en åben struktur og stor elasticitet. Det gør materialet optimalt til forsegling eller tætning.

Skal du bruge forsegling, hvor der f.eks. er store krav til UV- eller temperaturrestandigheden?

Eller måske til udfyldnings- og tætningsopgaver i industrien? De forseglende egenskaber er anvendelige i en lang række af industrier.

Tætningsegenskaberne ved denne gummitype kan f.eks. bruges omkring ventilations- og klimaeanlæg eller ved stanseforme, lamper, karrosseridele, stålskabe og døre. Svampegummi kan findes i forskellige gummityper med flere typer af klæb.

Sponge rubber is a foamed and soft type of rubber with a open structure and great elasticity, making the material optimal for sealing or caulking.

Do you need a sealer with high UV- or temperature resistance? Or perhaps for sealing and caulking applications in industry? The sealing properties of sponge rubber are useful in a variety of industries.

For example, the sealing properties of this type of rubber can be used around ventilation and air conditioning systems, as well as for cutting dies, lamps, body panels, steel cabinets and steel doors. Sponge rubber is available with different types of adhesive and rubber.

Fenderlister

Fender lists

Fendere er stødabsorberende gummiemner, som ofte bruges til både, trucks, lastbiler og på havne.

Vi har fenderlister i bl.a. sort, grå og hvid PVC. De findes i forskellige mål og konstruktioner, og de er alle UV-bestandige og slidstærke.

Fenders are shock absorbing rubber items commonly used for boats, in harbors, forklifts and trucks.

We have fender lists in black, grey and white PVC. They are available in different sizes and constructions, but they are all UV resistant and durable.

Glasbånd

Window seals

Glasbånd med klæb er multianvendeligt og kan bruges til f.eks. vinduer, drivhuse og termoglas, en utæt havedør eller som mellemlæg eller tætning ved pandeplader og stålprofiler.

Ligesom svampegummi vil denne gummitype nemt forme sig efter alle strukturer og modvirke lækager.

Materialer og farver er der mange af, så du altid får et produkt, der dækker behovet.

Window seals with adhesive is versatile for windows, greenhouses and thermal glass, a leaking garden door or as a spacer. Like sponge rubber, this kind of rubber easily molds to all structures and counteracts leaks.

There are many materials and colors, so you can always get a product that suits your requirements.

Cellegummi

Cellular rubber

Cellegummi er ekstruderet, og når det produceres gør tilsætningen af gas, at der opstår en fuldstændig ensartet cellestruktur - også i overfladen.

Vi har meget lave tolerancer på cellegummi, som gør det meget anvendeligt i industrien med specialklæber. Cellegummi findes i gummityperne EPDM og CR.

Cellular rubber is extruded. During production, the addition of gas results in a completely uniform cell structure - also on the surface.

Our cellular rubber has very low tolerances. Therefore it is often used in industry with special glue. Available in EPDM and CR.

Sicocell

Material: EPDM, sort *black*

Hardness: SH 25

Density: 0,14

Sico trim

Sico trim

Trimlister (bedre kendt som pyntelister) kender vi fra bildøre og bagklapper på biler. De er også udbredt især i servicefaget, hvor man f.eks. på hoteller og i sundhedssektoren anvender dem som beskyttelse mod skader på døre, karme og vægge.

De er også kendt som eksklusive afslutningslister, som både er dekorative og beskytter mod buler. Vi kan tilbyde et bredt spekter og har langt mere, end der er vist her.

We know trims from car doors and hatches. But they are also widely used in the service industry, such as hotels and the healthcare sector, where it's used to protect doors and walls from damage.

They can also be used as exclusive end trims which is decorative, but also protective against dents. We have a wide range and have many more products than shown in this catalog.

Gummibuffer

Rubber buffer

En gummibuffer sikrer en god afstand mellem to elementer og beskytter dem mod at ødelægge hinanden.

I privat brug kan de f.eks. anvendes som dørstop. I industrien ses de på læsseramper og ved maskinvogne. I det maritime bruger vi dem ved trailere og stativer til opmagasinering.

Vi fører også gummiklodser til autolifte.

A rubber buffer ensures a good distance between two elements, and also protects them from destroying each other.

At home they are used as doorstops. In industry they are used on loading ramps and machine trolleys. In maritime they are used by trailers and racks for storage.

We also have rubber blocks for car lifts in stock.

Vibrationsdæmpere

Vibration muffler

For ikke at sprede en maskines rystelser til gulvet og andre omgivelser, kan man med fordel montere maskinen på vibrationsdæmpere.

Om end du vil skåne en bygning, maskine eller mennesker for skader, stød, støj og belastninger, kan du finde de rette vibrationsdæmpere i vores udvalg.

Udover de viste har vi adgang til et stort udvalg af gummifødder og svingningsdæmpere i mange forskellige mål og med forskellige gevind.

In order not to spread the vibrations of a machine to the floor and other environments, it is beneficial to mount the machine on vibration mufflers.

If you want to protect and shield a building, a machine or people from injuries, shocks, noises and loads, you will certainly find the right vibration muffler in our selection.

In addition to the vibration mufflers shown in this catalog, we have a wide selection of rubber feet and vibration dampers with many different sizes and threads.

Silicone, FDA

Rubber Buffer | Type M

Vare Nr.: 39.M100/55FDA

Diameter (D): Ø100 mm | Højde (H): 55 mm

Gevind (Gxh): M16x41 mm i begge ender

Materiale: Silicone, FDA

Hårdhed: sh.55A

Stål: A4

Rubber Buffer | Type M

Art. Nr.: 39.M100/55FDA

Diameter (D): Ø100 mm | Height (H): 55 mm

Threaded Stud (Gxh): M16x41mm in both ends

Material: Silicone, FDA

Hardness: sh.55A

Steel Parts: A4

Type M

Showroom

Vi ved, hvor vigtigt det kan være at se og sammenligne produkterne, inden man køber dem. Derfor er vores showroom fyldt med et bredt udvalg af vores profiler. Du kan altid komme forbi på vores adresse **Edisonvej 11 i Vejle** for at tage et kig i vores showroom.

Vi glæder os til at hjælpe dig med alle slags opgaver.

*We know how important it can be to see and compare products before you buy them. That's why our showroom is filled with a wide range of our profiles. You can always visit us at our address **Edisonvej 11 in Vejle** to take a look in our showroom.*

We look forward to helping you with all kinds of tasks.

Fendere

Fenders

Fendere er stødabsorberende gummiemner som ofte bruges til både, trucks, lastbiler og på havne. Fendere kan findes overalt i transport og logistikverdenen. Findes i EPDM og NR/SBR, men kan også fås i andre materialer.

Fenders are shock-absorbing rubber items commonly used for boats, in harbors, forklifts and trucks. Fenders can be found everywhere in the transport and logistics world. Available in EPDM and NR / SBR. However, we can also order them in other materials.

Fendere til f.eks. havne og læsseramper

Fenders for e.g. harbours and loading ramps

Material: EPDM, sort *black*

Hardness: SH 70

Børste- og flocklister

Brush sections

Børstelister findes i forbindelse med porte og døre i industrien, hvor det gælder om at holde skidt, snavs og træk både ude og/eller inde.

Børsterne er som regel lavet af nylon, men kan også leveres med PP, hestehår eller rustfri tråd.

Børsterne og skinnerne kan købes separat.

Børstelisterne leveres i længder á 3 meter.

Brush sections are found in connection with gates and doors in industry, where it is important to keep dirt and drafts in and/or out.

The brushes are usually made of nylon, but can be delivered with PP, horse hairs or stainless steel wire.

Brushes and rails can be purchased separately.

Brush sections are supplied in length of 3 meters.

Lydisolering

Sound proofing

Lyddæmpende og lydisolerende plader sættes op for at dæmpe uønsket lyd og adskille støjilden fra det omliggende område. De anvendes ofte i motorrum, førerkabiner, kompressorer og meget mere.

Vi har dem i mange forskellige materialer, så du altid kan finde noget lyddæmpning, der dækker dine behov.

Sound absorbing panels are set up to muffle unwanted sound and to separate source of noise from the environment. Often used in engine rooms, cabins and compressors and far more places.

We offer sound proofing in many different materials, so you can always find something that suits your requirements.

Selvklebende skum med Tedlarbelægning

Benyttes, alt afhængig af folieafdækning, i førerkabiner, motorrum, kompressorer, generatorer, ventilatorer, turbiner, pumper og lignende.

Self-adhesive foam with Tedlar coat

Depending on the foil covers this is used in cabs, engine compartment, compressors, generators, fans, turbines, pumps or the like.

Varenr. Item no.	Farve Color	Overflade Surface	Størrelse Size

48.626	Sort Black	Plan 100% Plane 100%	2 / 10 x 1.200 x 1.500 mm

Lydisoleringsmaterialet er lavet af åbencellede, fleksible skummaterialer i tungere densiteter. Den forøgede densitet er opnået ved at anvende regenereret skum. Anvendelsesområdet kan være lydisolering af motorrum i lystbåde, vindmøllehuse, kompressorer og andre støjende maskiner, hvor det er muligt at adskille støjkilden fra det omliggende område. Da der ofte skal etableres et kølende luftskifte i disse situationer, laver man en lydsluse beklædt med lydabsorptionsmateriale. Granulatcoldskum med enestående lyddæmpningsevne benyttes til beklædning af motorrum, maskinafskærmninger, ventilationskamre og støjcabiner. Grundet den lave densitet kan den også med fordel anvendes som absorbent.

The soundproofing material is made of open-celled, flexible foam materials in heavier densities. The increased density is achieved by using regenerated foam. The field of application can be soundproofing of the engine compartment in yachting, wind turbine housings, compressors and other noisy machines where it is possible to separate the noise source from the surrounding area. It is often necessary to assure a cooling air circulation in these situations. Therefore it is recommended to make a sound lock covered with soundproofing material. Granulate cold foam with unique soundproofing ability is used for coating of engine compartment, machine guards, ventilation chambers and noise cabins. Due to the low density it may also be used as absorbent.

Lydabsorptionsmaterialer (PU) er typisk lavet af åbencellede, fleksible skummaterialer i lettere densiteter. Anvendelsesområdet vil typisk være indvendig beklædning af førerkabiner, støjskærme, lydsluger, kanalvægge og lignende situationer, hvor det ikke er muligt at adskille støjekilden fra det omkringliggende område.

Soundproofing materials (PU) are typically made of open-celled, flexible foam materials in lighter densities. The field of application will typically be interior sheathing of cabs, noise barriers, sound locks, canal walls and similar situations where it is not possible to separate the noise source from the surrounding area.

Selvklæbende skum uden folie

Anvendes til indvendig beklædning af motorrum, maskinafskærmninger, støjkabiner, el-styretavler, paneler, indlæg i emballage m.m.

Self-adhesive foam without foil

This is used for interior sheathing of engine compartment, machine guards, noise cabins, electrical control panels and inserts in packaging with more.

Pakke med 40 stk.
Plastic disc with 50 mm diameter for mounting of motor insulation. Pack of 40 pcs.

Gummiplader fra Kina

Rubber sheets from China

Gummiplader produceret i Kina er prisgunstige alternativer til gummiplader produceret i Europa. De er ikke en erstatning for den europæiske kvalitet. Pladerne er et godt alternativ til mange af de gængse opgaver. De kan bruges til blandt andet: køretøjer, dyretransport, værkstedsgulve og meget mere.

Anbefales ikke til høj kvalitet pakninger med store krav til tolerancer og mekanisk styrke. Sammenlign evt. de tekniske beskrivelser. Pladerne har større tykkelsestolerancer end de europæiske.

Hele ruller leveres i plastfolie. Mange andre kvaliteter kan skaffes i større mængder.

Rubber sheets from China are excellent alternatives to European sheets at very favorable prices. Should not be understood as a substitute for European qualities. The sheets are good alternatives for most common tasks. They can be used for: vehicles, animal transport, workshop floors and much more.

Cannot be recommended for high-quality seals with high demands on tolerances and mechanical strength. In case of doubt please compare the technical descriptions. The sheets have higher tolerances on thickness than the European ones.

The rubber sheets are delivered on rolls wrapped in plastic. Many other qualities are available if large quantities are required.

NR-SBR gummimåtte *NR-SBR rubber sheet*

Prisgunstig gummiplade til almen brug, hvor der ikke stilles større krav til trækstyrke. Bruges til pakninger, mellemlæg m.m.
Commercial rubber mat for normal use, where there are no specific demands on tensile strength. Useful for eg. seals.

Ergo Solid

Ergo Solid er en modulmåtte af en speciel nitrilgummiblanding, som gør den både varmebestandig og modstandsdygtig overfor olier, fedt og kemikalier. Modulerne kan nemt bygges sammen til den ønskede størrelse, og de kan også suppleres med skrå kanter for at reducere snublerisikoen. Kanterne fås også i gul for markering af arbejdsområder m.v. Ergo solid er en slidstærk måtte med en skridsikker overflade. Stabile knopper på undersiden løfter matten, hvilket sørger for dræning og ventilation mod gulvet. Ergo solid har en rigtig god bæreevne og en lukket overflade, der gør den nem at holde ren.

Ergo Solid is a modular mat made of a special nitrile rubber compound that makes it both heat resistant and resistant to oils, greases and chemicals. The modules can be easily assembled to the desired size and can also be supplemented with chamfered edges to reduce the risk of tripping. The edges are also available in yellow for marking work areas etc. Ergo solid is a durable mat with a non-slip surface. Sturdy knobs on the underside lift the mat, providing drainage and ventilation to the floor. Ergo solid has a very good carrying capacity and a closed surface that makes it easy to keep clean.

Material: Nitril

Colour: Sort *Black*

Varenr. <i>Item no.</i>	Beskrivelse <i>Description</i>	Størrelse <i>Size</i>	Vægt <i>Weight</i>
38.9726230	Ergo Solid måtte <i>Ergo Solid mat</i>	910 x 910 x 17 mm	8,2 kg
38.9730030 ●	Sort skråkant - han <i>Black chamfer - male</i>	76 x 910 mm	1 kg
38.9730030S ●	Sort skråkant - hun <i>Black chamfer - female</i>	76 x 910 mm	
38.9750030	Samlestykke <i>Connecting piece</i>	31 x 230 mm	0,1 kg

● **BEMÆRK:** Ved kant rundt om hele matten bruges 2 han- og 2 hun-skråkanter.

Grundmatten har udvendige tappe på 2 sider.

NOTE: For edging around the entire mat, 2 male and 2 female chamfers are used.

The basic mat has external tabs on 2 sides.

Ergo Bubble

Ergo Bubble matten er en traditionel elastisk og holdbar boblemåtte fremstillet af skum-polyuretan som både er holdbar og holder formen. Mattens overflade og elasticitet er med til at stimulere blodcirkulationen og muskelfunktionen i fødder, ben og ryg og hjælper dermed at forebygge belastningsskader. Ergo Bubble er velegnet til brug overalt i tørre miljøer. De skrå kanter minimerer risikoen for at snuble, mens matten overflade giver god skridsikkerhed. Matten findes i flere standardstørrelser og kan derudover fremstilles efter dine specialmål.

The Ergo Bubble mat is a traditional elastic and durable bubble mat made of foam-polyurethane that is both durable and holds its shape. The mat's surface and elasticity help to stimulate blood circulation and muscle function in the feet, legs and back and thus helping to prevent overuse injuries. Ergo Bubble is suitable for use anywhere in dry environments. The chamfered edges minimise the risk of tripping, while the mat's surface provides good slip resistance. The mat is available in several standard sizes and can also be made to your special dimensions.

Material: Polyurethan

Colour: Mørk grafit *Dark graphite*

Matten kan også skaffes i oliebestandig NBR i størrelserne:

The mat is also available in oil-resistant NBR in the sizes:

650 x 1.400 mm / 950 x 1.500 mm / 950 x 1.800 mm

Ergo Durk

Ergo Durk er en klassisk arbejdspladsmåtte af nitrilgummi med en dørkmønstreret overflade. Bagsiden er af EPDM-cellegummi med lukkede celler. Dermed får du en holdbar og slidstærk måtte med en skridsikker overflade, der er modstandsdygtig over for olie, fedt og kemiske stoffer. Kanterne er affasede for at reducere snublefarer og for at gøre det nemt at køre en vogn op uden at sidde fast. Fås i standardmåtte fra rulle eller i specialmål efter tegning, alt med affasede kanter. Ergo Durk ESD beskytter også følsomt elektronik imod statisk elektricitet. Måtten er godkendt i henhold til SP 2472.

Ergo Durk is a classic work mat made of nitrile rubber with a surface patterned like the deck of a ship. The underside is made of EPDM cellular rubber with closed cells. This gives you a durable and hard-wearing mat with a non-slip surface that is resistant to oil, grease and chemicals. The edges are chamfered to reduce the risk of tripping and to make it easy to drive up a trolley without getting stuck. Available in standard mat from roll or in custom sizes acc. to drawing, all with chamfered edges. Ergo Durk ESD also protects sensitive electronics from static electricity. The mat is approved according to SP 2472.

Material: Nitril / EPDM

Colour: Sort *Black*

38.5017530A *	1.400 x 10.000 x 11 mm	66 kg

Ergo Dome

En slidstærk måtte i ren naturgummi (SBR). Ergo Dome er velegnet til alle arbejdsmiljøer, fra tørre til tunge industrier. Måtten kan tåle olie, fedt og kemiske stoffer. Den buleformede overflade stimulerer blodcirkulationen og reducerer overbelastningsskader.

A durable mat in pure natural rubber. Ergo Dome is suitable for all working environments, from dry to heavy industries. The mat can withstand oil, grease and chemical substances. The bulge-shaped surface stimulates blood circulation and reduces overuse injuries.

Colour: Sort *Black*

Måtten kan også skaffes i oliebestandig NBR i størrelserne:

The mat is also available in oil-resistant NBR in the sizes:

650 x 1.400 mm / 950 x 1.500 mm

38.410201	900 x 1.200 mm	4 kg

Ergo ring

Ergo ring er en klassisk ringgummimåtte, der effektivt bortdræner væde og spildmateriale, hvilket giver en skridsikker overflade at stå på. Den kan også fungere som en grov stænkmatte i indgangspartier. Den åbne ringkonstruktion skraber effektivt alt groft snavs af, giver maksimal skridsikkerhed og en god aflastning. Navene på bagsiden holder maten på plads og tillader væsken at passere igennem.

Ergo Ring is a classic ring rubber mat that effectively drains away liquid and spills, providing a non-slip surface to stand on. It can also be used as a rough splash mat in entrance areas. The open ring construction effectively scrapes off all coarse dirt, providing maximum slip resistance and a good strain relief. Nails on the back hold the mat in place and allow liquid to pass through.

Material: NR

Colour: Sort *Black*

Måtten kan også skaffes i oliebestandig NBR i størrelserne:

The mat is also available in oil-resistant NBR in the sizes:

400 x 500 mm / 600 x 800 mm

Ergo Ease

Ergo Ease er en modulmåtte af nitrilgummi som gør den både varmebestandig og modstandsdygtig over for olie, fedt og kemikalier. Pladerne kan sammensættes til den ønskede størrelse uden anvendelse af samlingsstykker. Måtten kan modstå store belastninger og er egnet til de fleste miljøer, både tørre og våde. Den giver ergonomisk aflastning af fødder, ben og ryg samt en høj skridsikkerhed. Stabile knopper på undersiden løfter maten, hvilket sørger for dræning og ventilation mod gulvet. Affasede kanter minimerer risikoen for at snuble. Kanterne fås også i gul for markering af arbejdsområder m.v.

Ergo Ease is a modular mat made of nitrile rubber which makes it both heat resistant and resistant to oil, grease and chemicals. The sheets can be assembled to the desired size without the use of connectors. The mat can withstand heavy loads and is suitable for most environments, both dry and wet. It provides ergonomic relief for feet, legs and back as well as high slip resistance. Stable knobs on the underside lift the mat, providing drainage and ventilation to the floor. Chamfered edges minimise the risk of tripping. The edges are also available in yellow for marking work areas etc.

Material: Nitril

Colour: Sort (måtten kan også skaffes i terracottarød) *Black (the mat is also available in terracotta red)*

Ergo Classic

Ergo Classic er en arbejdsmatte af vinyl med en ribmønstret overflade som giver god skridsikkerhed (den opfylder R10 DIN 51130-standarden for skridsikkerhed). Mattens konstruktion af mikroceller stimulerer blodcirkulationen i fødder og ben og giver samtidig en god ergonomisk støtte til ben, ryg og hofter. Den er velegnet til tørre miljøer som f.eks. butikker, lagerbygninger og foran arbejdsborde. Affasede kanter minimerer risikoen for at snuble. Ergo Classic har 3 års fuld slitagegaranti. Nem at tilpasse selv med en almindelig tæppekniv.

Ergo Classic is a vinyl work mat with a ribbed surface that provides good slip resistance (it meets the R10 DIN 51130 standard for slip resistance). The mat's microcellular construction stimulates blood circulation in the feet and legs while providing good ergonomic support for the legs, back and hips. It is suitable for dry environments such as shops, warehouses and in front of work desks. Chamfered edges minimise the risk of tripping. Ergo Classic comes with a 3-year full wear warranty. Easy to fit even with a standard carpet cutter.

Material: Vinyl

Gummistropper

Rubber straps

Gummistropper bruges som en fleksibel fastgørelse. Stropperne kan bl.a. bruges til at fæstne presenninger til landbrugsmaskiner, lastbiler eller reklameskilte.

Vi tilbyder gummistropper i flere varierende udformninger lige fra T-stropper eller T-stiger til ovale stropper, bagageremme og stigestropper. Vi har også stropper i lange længder som bl.a. kan bruges til fastgørelse i industrien.

Rubber straps are used everywhere as a flexible fastening. The straps can among other things be used for fastening tarpaulins on agricultural machinery, trucks or advertising boards.

We offer rubber straps in different variants - from T-straps or T-ladders to oval straps, luggage straps or ladder straps. We also have straps in long lengths that can be used for fastening in industry.

Poliall

Poliall

Poliall hængsler er vandtætte stanghængsler, der bl.a. bruges som dørhængsler, foldedørsopbygninger og som hængsel til tophængte låger.

Poliall hinges are waaterproof continuous hinges that are used as door hinges, folding door constructions and as a hinge for top-hung doors.

Centraflex

Vandtæt stanghængsel med polyester-kerne og PVC-flanger. Tillader 165° / 180° åbning. Stor styrke og høj elasticitet. Sort finish.

Water-proof continuous hinge with polyester-core and synthetic flanges. 165° / 180° opening. High strength and excellent flexibility. Black finish.

Oppustelige tætninger

Inflatable seals

Oppustelige tætninger aktiveres med trykluft. Disse tætninger slutter helt tæ, og de er derfor egnet til mange slags opgaver. Vores oppustelige tætninger kan evt. leveres med ventil monteret.

Inflatable seals are activated with compressed air. They have a unique ability to close completely tight and are therefore the ideal solution for numerous purposes. It is possible to get our inflatable seals with mounted valve.

30.shore20-90

Shore tester, silikonegummi
Shore samples, silicone rubber.

87.770/10

Primer loctite SF 770 - forbedrer klæbeevnen på materialer, der er svære at lime.

Primer loctite SF 770 - improves adhesion on difficult to bond materials.

87.1034

Sekundlim Permalock, 3 g. Velegnet til EPDM

Super glue Permalock, 3 g. Suitable for EPDM

87.1035

Sicomet Sekundlim, 20 gr. Velegnet til svampegummi

Sicomet super glue, 20 gr. Suitable for sponge rubber.

87.2010

SikaFast 2590 - en hurtighærdende og spalteudfyldende tokomponent universal lim", 10 ml.

A fast curing and gap-filling two-component Universal Glue

87.723

Spraylim, Loctite 9323

Spray glue. Loctite 3923.

87.7051

TeroKAL 2444, 340 g. CR-klæbestof til limning af bl.a. svampegummi, lyd-dæmpningsmaterialer m.m.

TeroKAL 2444, 340 g. CR adhesive for bonding sponge rubber, soundproofing materials, etc.

87.52759 / 87.52759X

Terostat 2759, 310 ml, grå. Enkomponent tætningsstof til tætning mellem gummi og metal.

Terostat 2759, 310 ml, grey. One-component sealant for sealing between rubber and metal.

87.52759X: Foliepose Foil bag, 570 ml

87.51989 / 87.51999F

Terostat 930, 310 ml, sort. Elastisk og stærk tætningsmasse for metal, glas og gummi.

Terostat 930, 310 ml, black. Elastic and strong sealant for metal, glass and rubber.

87.51999F: Foliepose Foil bag, 570 ml

87.51939S

Teroson MS 939, 290 ml, sort. Til elastisk limning med høj styrke, som absorberer vibrationer.

Teroson MS 939, 290 ml, black. For high-strength elastic bonding that absorbs vibrations.

Min order: 12 pcs.

(1) Kemisk bestandighed <i>Chemical resistance</i>	God <i>Good</i>	God <i>Good</i>
(1) Oliebestandighed <i>Oil resistance</i>	Meget god <i>Very good</i>	God <i>Good</i>
(1) Bestandighed overfor benzin <i>Petrol resistance</i>	Meget god <i>Very good</i>	Ingen <i>None</i>
Ozonbestandighed <i>Ozone resistance</i>	Ingen <i>None</i>	Meget god <i>Very good</i>
Svovlsyre bestandighed <i>Sulfuric acid resistance</i>	Ingen <i>None</i>	Ingen <i>None</i>
(4) Temperaturbestandighed °C <i>Temperature resistance °C</i>	Ca. -40 / +100°C	Ca. -10 / +60°C
Egenskaber <i>Properties</i>	Gode mekaniske egenskaber, slidbestandig, dimensionsstabil <i>Good mechanical properties, abrasion resistant, dimensionally stable</i>	God mekanisk vurdering, god svejse/vedhæft egenskaber, bliver hårdere i benzin og olie <i>Good mechanical rating, good welding/adhesion properties, hardens in petrol and oil</i>

Egenskaber plasttype TPE

Properties plastic type TPE

Type og kvalitet <i>Type and quality</i>	TPE (gennemsigtig) <i>TPE (transparent)</i>	TPE (normal)
Kemisk betegnelse <i>Chemical nomenclature</i>	Termoplastiske elastomerer	
Hårdhed <i>Hardness</i>	55 Sh A - 50 Sh D	60 Sh A - 50 Sh D
Temperaturbestandighed °C <i>Temperature resistance °C</i>	-50 til +125°C	-50 til +125°C
Egenskaber <i>Properties</i>	Fremragende vejrbestandighed. God kemisk bestandighed (undtagen ved organisk opløsningsmiddel, aromatiske- og vegetabiliske olier). <i>Excellent weather resistance. Good chemical resistance (except for organic solvent, aromatic and vegetable oils).</i>	

- På grund af mange mulige kemikalier, opløsningsmidler, arbejdstemperaturer og arbejdstider kan de oplyste værdier i enkelte tilfælde udvise forandringer. Især kan en elastomertype, som normalt udviser ringe bestandighed, udvise en meget god resistens overfor bestemte medier.
In view of the multitude of chemicals, solvents, application temperatures and times, the value quoted may vary in some cases. For example one type of elastomer, which normally has only low resistance properties, could show very good resistance to certain media.
- Ved relativt lave hhv. høje temperaturer reduceres modstanden normalt. *At relatively high or low temperatures, resistance generally drops.*
- God udvidelsesbestandighed overfor forskellige blødgørere. *Good expansion resistance to various ester based plasticizers.*
- Det drejer sig om grænseværdier, som kan svinge alt efter sammensætningen af blandingen. Vedvarende indsætning i grænseområderne ændrer de fysiske værdier. Til ekstreme påvirkninger kræves særlige elastomere-blandinger.
These are borderline values which, depending on composition of the mixture, can vary. If used permanently in such borderline areas, this can lead to a change in the physical values. For such extreme applications it is advisable to use special elastomer mixtures.

Egenskaber silikone *Properties silicone*

Egenskaber <i>Properties</i>	
Arbejdstemperatur (standarddele) <i>Working temperature (standard compounds)</i>	-50°C to +180°C / +250°C
Arbejdstemperatur (specialdele) <i>Working temperature (specific compounds)</i>	-90°C / +315°C
Forlængelse <i>Elongation</i>	300 - 800%
Hårdhed <i>Hardness</i>	25 - 80 SHA
Sammenbrudsspænding <i>Breakdown voltage</i>	23 kV (VDE 0303)
Materialer til specifikke applikationer <i>Materials for specific applications</i>	Høj kemikalie resistens. God dæmpning af høj- og lavfrekvent vibrationer. Silikonegummiprodukter er smagløse og lugtfrie. Modstandsdygtig over for aldring og vejrforhold <i>High chemical resistance. Good damping of high and low frequency vibrations. Silicone rubber products are tasteless and odourless. Resistance to ageing and weather conditions.</i>
Farver <i>Colors</i>	Farven på silikoneprodukter kan vælges til en given applikation: Fra gennemsigtig til sort i overensstemmelse med RAL, inklusiv metalfaver (aluminium, stål, messing). Farverne er kendetegnet ved livlighed og holdbarhed. <i>The colour of silicon products can be suitably chosen for the particular application: from transparent to black, in accordance to RAL, including metallic colours (aluminium, steel, brass). The colours feature of vividness and durability</i>

Tolerancer for ekstruderede profiler *Tolerances for extruded profiles*

Dimensionstolerancer for støbte, ekstruderede og kalandrede massive gummiprodukter. (GB/T 3672-92) ISO3302-1998.

Dimensional tolerances for moulded, extruded and calendered solid rubber products. (GB/T 3672-92) ISO3302-1998.

Gummitykkelse <i>Rubber thickness</i>	E1 ±	E2 ± Solid	E3 ± Svampegummi <i>Spongerubber</i>
0 - 1,5 mm	0,15 mm	0,25 mm	0,4 mm
1,5 - 2,5 mm	0,2 mm	0,35 mm	0,5 mm
2,5 - 4 mm	0,25 mm	0,4 mm	0,65 mm
4 - 6,3 mm	0,35 mm	0,5 mm	0,8 mm
6,3 - 10 mm	0,4 mm	0,65 mm	1 mm
10 - 16 mm	0,5 mm	0,8 mm	1,3 mm
16 - 25 mm	0,65 mm	1 mm	1,6 mm
25 - 40 mm	0,8 mm	1,3 mm	2 mm
40 - 63 mm	1 mm	1,6 mm	2,5 mm
63 - 100 mm	1,3 mm	2 mm	3,2 mm

Længdetolerancer for afkortede profiler *Length tolerances for shortened profiles*

Længdetolerancer for massive gummiprofiler DIN 7715-L2

Solid rubber profile length tolerances DIN 7715-L2

Nominelt område <i>Nominal range</i>				± mm
Fra <i>From</i>	0 mm	Til <i>To</i>	40 mm	1,0
